Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$250 Individual/ \$750 Family	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan , each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible .
Are there services covered before you meet your deductible ?	Yes. Well child care and children’s immunization are covered before you meet your deductible.	This plan covers some items and services even if you haven’t yet met the deductible amount, but a coinsurance may apply.
Are there other deductibles for specific services?	Yes, \$350 for out-of-network inpatient services.	You must pay all the costs for these services up to the specific deductible amount before this plan begins to pay for these services.
What is the out-of-pocket limit for this plan ?	\$2,000 Individual	The out-of-pocket limit is the most you could pay in a year for covered services.
What is not included in the out-of-pocket limit ?	Copayments, employee premiums, balance-billed charges and healthcare this plan doesn’t cover.	Even though you pay these expenses, they don’t count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	Yes. See www.ufcwnationalfund.org or call 201-569-8801 for a list of network providers .	This plan uses a provider network . You will pay less if you use a provider in the plan ’s network. You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider ’s charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist ?	No.	You can see the specialist you choose without a referral .
